

Nothing Is What It Seems

Federal and State Government are not what we think they are in terms of who controls them.

➤ The US Government is influenced by infiltrated agents (Senior Executive Service, communists, socialists, hard

leftists, Jesuits) and “run interference with the Executive branch continuously ➤ State Governments have similar circumstances where people in both parties provide top cover for nefarious

activities within the state (top cover for drugs, human trafficking, pedophilia, money laundering as examples, immigration/make more dem voters)

Federal Government:

➤ Deep State consists of bureaucrat top cover, international cabal leaders, CFR, Rothschilds, Rockefellers,

Foundations, Military Industrial Complex Corps, etc.

State Governments:

➤ Bureaucrats on Governor’s staff, Judicial Branch and Legislature from both parties (this is not Repub Vs. Dems, it

is Good vs. Evil) ➤ The Federal Model bleeds into the state model: Top cover in key positions, use of foundations to push agendas

and use of key people (cabal, and illuminati bloodlines to control the narratives, follow the money) ➤ As with the Federal narrative, the liberal media controls the state narratives ➤ They use school indoctrination to further the agendas:

➤ They use school indoctrination to further the agendas:

- LGBTQ
- Godless Theology
- Pro-Choice and Sexual Immorality
- Evolution vs. Creationism
- Killing critical thinking by supporting corporate slavery (they don’t want entrepreneurs to survive and thrive)
- Globalism vs. National Sovereignty

Bottom Line: Maine's swamp is deep all the way from the Congressional team to the state legislature and staffs and foundations we think friendly, such as Maine Development and Maine Community Foundations, need to be watched VERY CAREFULLY. Look at their boards and follow the money. Look who serves on state UMaine and Community college boards too.

If you are going to be in control of state government, you'd better understand this:

What is the Deep state?

Part 1:

<https://youtu.be/rQouKi7xDpM> Part

2: <https://youtu.be/xO-mcduYCEA>

Part 3:

<https://youtu.be/ZMtsbi2C77s>

Extra thought: Why does anybody in Maine think it's a smart idea to transplant Somali refugees into Aroostook County? Follow the money, the organizations, and the people behind it all and **get red-pilled.**
